

HELP!

We Can't Find You!

Please Help Us by Updating Your Phone Number

As more and more people switch to a cell phone and discontinue landline phone service, we are finding that contact phone numbers for our members are not current.

Please note a message on the lower right side of your billing statement that states: "Is this your main contact phone number?" A phone number will be listed below that message. If the number listed is not current, please be so kind as to contact our office to update your phone number.

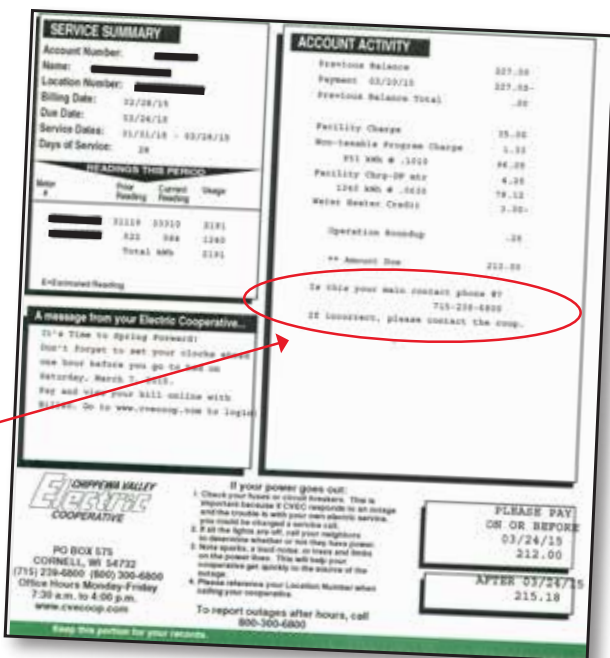

We appreciate your cooperation. Chippewa Valley Electric does not share your information and will only contact you for business purposes.

Meistad Elected to Board of Directors at Annual Meeting

Kevin Meistad from Cornell, WI was Elected to the board as District 4 Director at the 79th Chippewa Valley Electric Cooperative's Annual Meeting on February 27.

Kevin is excited about being a part of Chippewa Valley Electric Cooperative's Board of Directors and enthusiastic for the opportunity to serve the cooperative membership within his district and hometown. He feels it is important to support local businesses and to be involved in the community one calls home.

Kevin and his wife, Bobbie, own and operate Foster's Riverview Inn & Catering in Cornell.

We have expanded our Med-A-Lert offerings to better meet the needs of our clients!

We are introducing three new offerings to our Med-A-Lert service.

Med-A-Lert *in case of emergency*

We still have our **Basic** package, with Linear equipment, tried and true, and only **\$25/month**.

We have added an option with **Fall Detection**. We still use the Linear system, but have added a pendant that has a Fall Detection feature. The Linear system with Fall Detection is only **\$27/month**. This pendant is water resistant (not waterproof as with the Basic package), and has a replaceable battery.

Two-way voice is now an option with our **Enhanced Caretaker** system.

This system has all the features of our Basic package, but in addition allows you to communicate with the Response Center directly via the pendant. This is a great option for those who are frequently outside of the home, gardening, doing yardwork, or even going to the mailbox. A spare rechargeable battery for the pendant is kept charged in the base unit. The Enhanced system is only **\$30/month**.

All of the above systems have the basic requirements: Working landline phone jack & power receptacle.

Complete mobility is available for the active individual with the **Mobile SentryPal** option. The SentryPal is a cellular device, about 2 inches square. Pressing the alert button on the unit immediately puts you in direct contact with the Response Center. Your location is sent along with the call. Alerts can be sent as a text message to a number you choose to notify of an event, low battery, or power on/off. The cellular service provider is AT&T. The SentryPal is an option wherever there is reliable AT&T cellular coverage. The mobile system is **\$35/month**.

Installation is available with all of our systems for a one-time fee of \$38.50. During the installation we will review all of the features of the system, place a test call, and verify the list of responders.
