Attention Dual Fuel Customers

All of our electric meters record kWh usage locally, as well as reporting back to our system in Cornell.

A power failure message is received in Cornell whenever a meter is without power, due to either an outage, or in the case of a Dual Fuel Meter, a circuit breaker powered off. It is a requirement of the Dual Fuel program that the meter be powered on at all times.

Our Dual Fuel Meters require a connection to the Load Center (fuse box), generally via a dedicated circuit breaker, which

should be tagged to be powered on at all times.

Please confirm your Dual Fuel Meter is powered on. If you have a meter with a digital display, the display should alternate with information about the electricity being delivered to your account, including Voltage and kWh. If the display is blank, the meter is not powered on. If you have a mechanical meter with the spinning disk, please look for a small red light in the lower half of the meter.

If you have any questions, please contact our Member Services Department.

This is an excellent time of the year to have your heating system inspected and serviced. We encourage you to contact your HVAC contractor for an inspection and tune-up. For Dual Fuel customers you may only rely on your backup heating system for a few hours at a time, but keep in mind it will most likely be the coldest, most miserable days!

Unclaimed Capital Credits Provide Scholarships to Local Students

The following list of members received electric service from Chippewa Valley Electric Cooperative several years ago, and the capital credit funds are still being held in their names. We've been unable to return this money because we don't have a current address. If you know the whereabouts of these people, please tell them to

contact our office at 715.239.6800 or 1.800.300.6800.

To claim these funds or to donate them to our scholarship fund, inactive members must contact Chippewa Valley Electric Cooperative and provide satisfactory evidence of their right to receive them. If we cannot locate these individuals, the unclaimed

funds will be used to provide scholarships to local students through our Federated Youth Foundation.

This is an excellent opportunity to donate capital credits to our scholarship fund. Our scholarships are awarded each spring to graduating high school students of Chippewa Valley Electric Cooperative members. We ask that members contact our office if they are interested in donating their capital credits to the scholarship fund. It is a simple procedure to donate these funds to a worthwhile project.

list continued on back. . .

Our office is closed for Labor Day - Monday, Sept 7
